D BUGBEE ap22

RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all other and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere than common Tin Plate Iron Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repairs while the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which iron thus protected can be applied In general terms it is applicable to all articles of iron where it is desirable to protect from the action of the atmosphere and they would especially call the attention of those interested in TELEGRAPHIC LINES, to the Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only a cent per half as much as copper, and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c, they will be able to furnish any article which may be desired A supply of Patent manufactured in Europe), constantly on hand, from 16 to 32 wire gauge

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflamation of the Liver and Spleen Inflamation, Soreness and Ulceration of the Stomach Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflamation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either bleeding, or blind, internal or external and probably the only thing that will There is no mistake about it It is a positive cure—*speedy and permanent* It is also a convenient medicine to take, and supersedes the general health in a remarkable manner

Each box contains twelve doses, at $1 each so that for the three following directions are given the highest degree also agreeable, are urgent at and offensive, and from the very nature of the disease temporary in their effects This Medicine attacks the disease at its source and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

INFLAMMATORY DISEASES

Although the ELECTUARY will originally prepared for the cure of Piles, yet it has proved itself a medicine of unequalled virtues in all diseases of inflammatory character or with a determination of blood to any particular part or organ In inflammation and congestion of the liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels Kidneys and Bladder, in the same worthy and unequalled Rheumatism, it is the BEST Medicine ever discovered

IMPURITIES OF THE BLOOD

For all impurities of the blood arising from the improper use of Mercury or other causes, for all diseases of the Skin, as Scrofula Affections, Sores, where the blood is perfectly diseased to the head producing dizziness and dizziness, DR UPHAM'S ELECTUARY will positively relieve and cure

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and dangerous disease, the PILES, with consequent inflammation of the Stomach Bowels and Spine, weakness of the back flow of blood to the head &c—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can be safely be given, as it will not only remove Piles and all inflammatory diseases but WITHOUT PAIN or IRRITATION but will ensure in easy time, a safe delivery, and a sound constitution in the offspring

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL Medicine no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative No fear of taking cold while under the influence, no change in the diet or any restriction according to the directions, A CURE FOR LIFE IS GUARANTIED

Pamphlets giving valuable information respecting this Medicine may be had of Agents, or the Dr 67 Bleecker 120 Washington st Boston, General Agent for the New England States

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me March 14, 1847

Dr Upham—My dear Sir—I can not express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a per sect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs My case indeed became adjected, and a fatal result was to myself I was obliged to give up my business I had tried all kinds of medicine, I had the best advice the Doctors in Boston could give, spent much money—and twice submitted to painful operations I became perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I feel once more restored to health and now in a good situation to support my large family dependent on me

You can use this letter as you please

Yours respectfully, HARVEY CHARLTON

AGENTS

Bangor DeBUGBEE, G W LADD, Hampden, D Smith, Frankfort, Dr N Gilman, Bucksport, Barnard & Hill, Belfast, Washburn & Jordan Thomaston T Fogg, East Plantation, C A Macomber, Waldoboro, W H Barnard and by the dealers in Medicine generally Stlaw July 29

To JOHN HALL, of FOXCROFT

And the Public in general particularly to Druggists, Merchants Booksellers and Peddlers

Mr John Hale:

Dear Sir—It seems to be due to you and to myself, to lay before he public your confession to me in May or June 1847, in the town of Brewer in the presence of H P Parker and G O Goodwin, merchants, and one or two other persons in Mr Parker's store that you sold on conveyed a like receipt to Elder Pratt of Sweetville Bridge, and to Robert Spinney, Esq P M at Cobbsboy and to Mr Coleman a merchant at Ingraham's corner, Camden Since you made said conveyances of the knowledge of making said Plaster, and after you knew that I had such receipt and right to make and sell, you have traveled much in Maine, and have stated to those persons who were supplied with said Dr White's Plaster, not made by yourself, that it was a counterfeit article and that you were the only person who had a right or right to manufacture Do to White's Plaster

Your confession, which I have in writing, with your own signature, and witnessed, together with what you have repeatedly stated about the counterfeit and which can be proved by the testimony of the following named persons, involve you in the mazes of fraud and deception such as few men would be willing to resort to These are the witnesses referred to

THE WIDOW of Elder Pratt, Swansville,
Col C A MACOMBER, E Thomaston,
Elder WAKEFIELD, do do
H R BOND Jefferson,
Mr HASKELL Innkeeper Jefferson,
J W HINKS & CO Bucksport,
WM BARNARD Waldoboro',

and 100 others if necessary—and evidence can be had in this city to corroborate the above statement

You have the advantage of a fair and honest appearing exterior—your countenance is prepossessing and you can therefore easily deceive many,—hence I am compelled, in self defence, to expose your real character

The Public are respectfully informed that I shall continue to manufacture the genuine WHITE'S PLASTER, in strict accordance with the Original Receipt, which shall not be second to any made in the State The efficacy of my Plaster is fully established in this city

VOTES.

Printed votes for the county of Penobscot are ready for delivery Let the Whigs in the several townships go to it immediately that they have a supply and that they are early and properly circulated and be sure and have it on at the Polls early

See to the Voting List.

Let every Whig see that his name is on the list and that his christian name is there also—No matter how old a voter you may be to the town—remember that the old lists are not applicable consulted in making up the new list and therefore your name may be omitted See to it this day for your self and for your friends Let no vote be lost by neglect in this matter

Whig sentiment in Ohio—Views of Mr. Corwin

The Cincinnati Atlas of August 21st contains a highly interesting account of a Great Whig meeting held at Lebanon on the 6th inst At this meeting there were many prominent whigs and a full declaration of Whig sentiment in Ohio was brought out by speeches and resolutions

Mr R C Schenck the Representative of this District in the last Congress made an able and eloquent speech containing a triumphant exposition and justification of his views in the Mexican war and matters pertaining thereto as a member of the House of Representatives during the last session He was followed by Hon Mr Corwin in a speech which produced a great effect on the people present

In both these speeches the war with Mexico is strongly and unhesitatingly denounced as a war of plunder for the acquisition of territory

These views at this time, from this source are well timed and important, and every one of those, who should know better how to vote by understaken to represent him, decreasing in position against the acquisition of territory by conquest, is faulty in and to a certain extent a count of a desire to defeat the effects of the Wilmot Proviso The fact is that the highest and firmest position, as it is of opposition to the acquisition of territory, especially such territory as Mexico and by such ungodly means as the present war

The government is carrying on a plan of conquest on a gigantic scale—the plan by which it is meant to bring into the Union provinces and bosom of our government, millions on millions of acres and havior a ready upon the soil, after for millions of human beings, of a base degeneration and who are to decide upon the plan of the government, are to make part and parcel of the Republic and to have a voice in the management of her affairs, and perhaps the paramount influence in directing her destiny! And to use the energies of our country are staged in the career of blood and carnage such as must be the scourge of the world, and such a period more elevated Fame and prosperity her a mighty combination It is hard for the people in this country to believe this in the short span of our National existence—so short that

some of the original actors in the struggle and sufferers from oppression still live—our country should be fiercely waging a war of conquest to blot a free nation and all its institutions from the map of the world and incorporate its territory with our own boundaries Let such is the solemn, the awful fact and not And have our people become so debased, so lost to dignity of territory—so gloating over acquisition as to offer all this high hand Heaven for its wrath to go forward without a protest? No! thank God No Ohio has spoken Her great men have uttered their voice Her men in public convention have spoken Her sentiments are known—have been read out before the country and will meet with a thrilling response in millions of hearts But we are keeping our readers too long from the description which the Atlas, referred to, gives of Mr Corwin's speech and from the resolutions of the meeting Here they are

Mr Corwin followed We had never heard him before We have heard no better speaking in our time, his language up among people where most of his audience seem to be to the manor born; and we must say, (for the encouragement of that Mr Corwin's speech at Lebanon last Saturday) was the noblest, whether considered in reference to its matter or manner of both, that we ever heard from the hustings It was perfectly adapted to the immediate occasion and to the purpose of creating a sentiment against the acquisition of territory by conquest, in a faulty phase and to a certain extent a count of a desire to defeat the effects of the Wilmot Proviso The fact is that the highest and firmest position, as it is of opposition to the acquisition of territory, especially such territory as Mexico and by such ungodly means as the present war

The government is carrying on a plan of conquest on a gigantic scale—the plan by which it is meant to bring into the Union provinces and bosom of our government, millions on millions of acres and havior a ready upon the soil, after for millions of human beings, of a base degeneration and who are to decide upon the plan of the government, are to make part and parcel of the Republic and to have a voice in the management of her affairs, and perhaps the paramount influence in directing her destiny! And to use the energies of our country are staged in the career of blood and carnage such as must be the scourge of the world, and such a period more elevated Fame and prosperity her a mighty combination It is hard for the people in this country to believe this in the short span of our National existence—so short that

But we feel how without a presumptuous thought to descend to characters such as the Atlas has quoted, and now find most of it may be read through, and be fairly understood by any who heard it, declared the ablest speech he ever delivered, and to say that Mr Corwin far surpassed himself in the highest eulogium that can be pronounced upon his effort It was certainly superior in ability to his great speech in the Senate, and should be worth more than the expenses of this election were, could it be printed verbatim and given to every man, woman and child in the land It should be put in the hands of school boys for all time to come and it would be appropriate both in the Sunday school and the pulpit

Among the resolutions passed at this great Whig meeting in Ohio, were the following—which are vigorous bold, manly and just

1 Resolved, That the usurpation of power by the President of the United States, and the wanton abuse by the Administration of sound moral and political principles have involved the country in a raging civil war which threatens the permanency of our National Union, and the perpetuity of our Republican institutions

2 Resolved, That we have heard no defence of the war against which we protest, that justifies the immediate or the fundamental principles of the government

3 Resolved, That we view the existing war with Mexico as the result of the most flagrant violation of the Constitution by the Executive unrebuked for by the true interest and honor of the country—dishonor, bothing its unnumbered sins and ultimate consequences, to the best interest of the Nation and the treasonable intimating in question which must disturb and disserve the Union

4 Resolved, That we regard the annexation of Texas as the primary cause of the war, and the march of the army from Corpus Christi to the Rio Grande, as its immediate cause and not pending the passage of Senator Benton's bill, to defend the Texan frontier, as the pretext for the movement, that said plan of relief was unnecessary, and that it was finally made by the President, as a war measure, and ground for pretext

5 Resolved, That we deprecate the prosecution of this war by the invasion of Mexico, as unjust and unnecessary—unjust because its great object is the acquisition of slave holding territory as was expressly avowed in public debate by a Southern Senator Unnecessary because the subject of dispute between the two Republics were proper subjects of negociation, and as is believed might have been amicably settled without the sacrifice of so many lives or the enormous and alarming expenditure of so much money

I have no doubt Congress has the power to prohibit slavery in the District of Columbia, also in the admission of States into the Union to make it a condition of such admission that slavery shall not be tolerated

Respectfully I am Sir, yours,
S KINGSBERY

Eld Wm F Gallison, Ex-croft

☞ There is to be a great mass meeting today, at Dover, of all who are opposed to the War, to the perpetuity of slavery, and the extension of slave territory The purpose is to make their opposition felt at the polls

☞ The steamers now take passengers from Portland to Boston for twenty five cents

☞ LADIES, who are about purchasing any article in the Dry Goods line, we should recommend visiting T G Stickney's famous establishment, No 1 Main st, as he has just opened one of the best stocks ever most extensive stocks ever exhibited in our city, and as he buys cheap, and sells at a small advance from cost, we do not see how store can afford to sell cheaper for ready

Mr. Young's Botanical Expedition to Mount Katahdin.

BY ONE OF THE PARTY

Concluded

Supper was at length served up, the tea and meat as usual, but the bread was an experiment—made of rye and Indian meal—and the whole party—except a few, were loud in the praises of the inventor We soon turned into our berths, and had a thorough good sleep We got breakfast earlier than usual in the morning, as we were anxious to reach Mr Hunt's that day, which we did about 3 o clock, P M Here we stopped till the next morning, as that day was too far gone to allow us to reach Mr Cram's On the following morning we started early, as all were anxious to return to Bangor by Tuesday night We arrived at Mr Cram's where we left our carriage, about noon, and having recruited ourselves a little, after our hurried march over this bad road from the East Branch to the Aroostook Road, and dined on the best things our larder afforded—all prepared by Mrs Cram, a most excellent woman, who used us like old friends rather than as strangers—(and a long life and uninterrupted happiness to her and her husband!)—we departed in our carriage for Bangor

I was the Sabbath, and Dr Young was averse to travelling on this day, now especially as it was well understood along our route, that he was to be ordained by a clergyman But it was necessary to hurry to do We were short of provisions, Dr Tabrber was very anxious to get home to meet an important engagement and the sky had the appearance of an approaching storm Dr Young having consulted with the Rev Mr Chute about the expediency of proceeding on our return, resulted in directions to Mr Cowin to have his carriage in readiness by noon began to rain moderately, and as they team was now ready for the party we started forward—first spreading one of the tents on poles over the wagon to shelter us The rain did not continue long, and during the afternoon and evening till 10 o clock, we shortened our journey by 17 miles

The next day we came down the Penobscot River as far as the Rev Mr Lawton's one mile and a half below Passumkeag village At his house we cooked our supper and breakfast and hung the house and barn at our disposal for the night Mr Chute very properly lodged in the house—the rest retired to the barn, as we had every thing to make us comfortable A most excellent sleep we had, too For all the remainder of the journey, Mr Lawton would not take any compensation The next day about 5 o clock we arrived in the city, being absent 14 days

Notwithstanding the camping out life was quite new to the most of the party, all the while exposed to the dense and cool night air, yet none of us took any cold neither were we in the least degree sick during the entire Expedition For myself I could not have had it though our journey of a excessively fatiguing it was a pleasurable one to all—and satisfactory in the highest degree to Dr Young and the resident botanists who accompanied him To science generally it will be of much importance No the study of the vegetable is of more importance to the human family than this, considered in all its relations, Perchance, it is important to know what plants are found upon Katahdin, and how high at which they grow

We should have got a deer I daysay on the mountain, had not our provisions failed us It is very difficult to carry provisions where there is Mr Hunt's, or the West Branch, upon an ordinary trip for the journey we have made, and make a man chase a deer, even but the way of the Aroostook Road As to pecuniary, it is necessary for your understanding to be firm and perfect Stout knowledge of this are needed—all other kinds are not worth a fig, as our party can well testify Nine were completely *incarcerated* to see Surgeon's purse Dr Young's had the Spanish Complaint, it its worst stages and as a remedy prescribed a scribe at which others laughed in striving to reach it in all quest no did obtain Leaving but small by I would decrease the doubt rather For than against his try

The war with Mexico I consider unjust and unnecessary—unjust because its great object is the acquisition of slave holding territory as was expressly avowed in public debate by a Southern Senator Unnecessary because the subject of dispute between the two Republics were proper subjects of negociation, and as is believed might have been amicably settled without the sacrifice of so many lives or the enormous and alarming expenditure of so much money

I have no doubt Congress has the power to prohibit slavery in the District of Columbia, also in the admission of States into the Union to make it a condition of such admission that slavery shall not be tolerated

Respectfully I am Sir, yours,
S KINGSBERY

Massachusetts' Mechanics' Fair.

On the fifteenth inst the Massachusetts Charitable Mechanics Association will open their grand exhibition of manufactures, industry, ingenuity and productions of art, at Quincy Hall, Boston This is an exhibition in which every mechanic in New England should feel an interest No ingenious mechanic can spend a day in such an exhibition without gathering up many valuable suggestions in his and hundred which he can hardly fail to make both useful and profitable in his business

The Managers offer a premium of one hundred and fifty dollars to the inventor or proprietor of such machine or implement, not before exhibited, or such scientific discovery as shall be deemed most important to mankind, also one hundred dollars for the second best and fifty dollars for the third best—it being understood that these premiums are to form part of the present exhibition Medals of gold and silver, or honorable diplomas, will be awarded, as the articles exhibited may deserve In the distribution of prizes, the managers promise the strictest impartiality

Vermont Election.

The following are all the returns we have received of the election in Vermont, says the Atlas A correspondent writes that the license question has injured the Whig vote The vote is not as large as last year The enemy have been no choice by the people

Forty Towns—Elton, Whig, 1674, Dillingham, Loco, 736 Brainerd and others, 152 In 1846—Elton 1761, Smith, loco, 827, Brainard and others, 136

Representatives—The following towns have elected Whig Representatives—Brattleboro, Dummerston, Putney, Westminster, Newfane, Woodstock, Hartford, Springfield, Cavandish Thetford, Windsor, Chelsea, Marlboro, Vernon (gain), Bridgewater, Barnard, Rockingham, Castle,

Being nine Whigs and six Locos Two of the locos were run on the liberal ticket, and elected by Whig votes

Letter of Sanford Kingsbury.

The following letter we find in the Pascataquis Farmer and hasten to lay it before our readers

Kingsbury Sept 4, 1847

Dear Sir—I have received your letter containing inquiries as to my views upon several subjects which now agitate the public mind—My opinions have long been formed and I never have been disposed to conceal them from any one in answering your inquiries I will do so the more readily, because I am perfectly prompted by a friendly motive You have asked the object for which the resolutions which led to those conventions were adopted by the citizens of this town and vicinity, and will not be lengthy, because it is understood by those who attended the meeting

The Democratic party of this State, and of the Union, have for a long time been divided upon the question of the annexation of Texas to the United States, and the extension of slavery over territory now free Those who were opposed to the annexation of Texas, and to the extension of slavery over free territory, have been denounced as abolitionists, and as disunionists, and as traitors to their country, and to the Democratic party, by those who were in favor of annexation and the extension of slavery over free territory, and who were in favor of the war with Mexico, and the conquest of territory for the purpose of extending slavery over it

The Democratic party of this State, and of the Union, have for a long time been divided upon the question of the annexation of Texas to the United States, and the extension of slavery over territory now free Those who were opposed to the annexation of Texas, and to the extension of slavery over free territory, have been denounced as abolitionists, and as disunionists, and as traitors to their country, and to the Democratic party, by those who were in favor of annexation and the extension of slavery over free territory, and who were in favor of the war with Mexico, and the conquest of territory for the purpose of extending slavery over it

Thompson's Compound Syrup of Tar and Wood Naptha—If your family physician will suggest that he ought to have recourse to proper medicines for the removal of his friends This may be done either by consulting a respectable physician by taking a preparation which has been properly tested, and met with the universal approval of the public This plan, however is seldom adopted owing to the spacious street currency of villainous quacks, who unblushingly assert that at one particular medicine will cure every disease that flesh is heir to, from the tooth ache to the gout These wicked faltchitons are read by a majority of the people who swallow the bait, the result of which is, the public are first plundered, their health is quite poisoned and the sufferer is rendered unable, *quod erat demonstrandum* How much better it would be if people would inquire into the merits of a particular medicine before purchasing It would remove all doubts, and secure the purchaser from imposition We make the above remarks introduced to our readers Thompson's Compound Syrup of Tar and Wood Naptha, a preparation of *standard merit* for the relief of consumption, pectoral affections and diseases of the lungs and throat This medicine we have used with the most triumphant results and many cases of affections of the lungs have come under our notice which it has cured by a few bottles Try it, and be convinced *Sweet of Tar and Wood Naptha* is prepared by Dr Dickson at the N E Botanic Medicine Store 1 Tremont street
